

📦 Lucky Cashew Billing App - Ready to Use!

📦 Your App is Ready for Business

We've completed a full check of your billing app and it's ready to go! Here's what you need to know.

📦 Quick Start

First Time Setup

1. ****Open your app**** in a web browser (desktop or mobile)
2. ****Create a username and password**** - this will be your login
3. ****Create a backup immediately**** - the app will remind you
4. ****Start creating bills!****

To Install on Mobile

- ****iPhone:**** Tap the Share button → "Add to Home Screen"
- ****Android:**** Tap the three dots → "Install app"
- The app will work even without internet!

📦 What Works Great

Feature	Status
-----	-----
Creating bills	📦 Works perfectly
Collecting payments	📦 Works perfectly
Managing customers	📦 Works perfectly
Tracking inventory	📦 Works perfectly
Printing receipts	📦 Works perfectly
Generating reports	📦 Works perfectly
Working offline	📦 Works perfectly
Backing up data	📦 Works perfectly

📦 Works On These Devices

- 📦 Windows/Mac/Linux computers
- 📦 iPhones (iOS 11.3 or newer)
- 📦 Android phones and tablets
- 📦 Even works when internet is down!

📦 Your Data is Safe

- ****All data stays on your device**** - nothing is sent to the cloud
- ****Your password is protected**** with encryption
- ****Backups are your responsibility**** - create one every week
- ****The app is offline-first**** - it works without internet

☐ Important Things to Know

1. Create a Backup TODAY

The app stores everything locally on your device. ****If something goes wrong, you need a backup to recover your data.****

****How to backup:****

1. Open the app
2. Click "Backup" button in top right

3. A file will download (save it somewhere safe)
4. Do this at least once per week!

2. Test with Sample Data First

Before using with real bills:

1. Try creating a test bill with test products
2. Practice collecting payments
3. Try printing a receipt
4. Make sure everything works for you

3. Multiple Devices Same Data?

☐ ****Important:**** Each device keeps its own copy of data. If you use the app on both your phone and tablet, the data won't sync between them.

****Solution:****

- Use the backup feature to move data between devices
- Export from Device A, Import on Device B

4. Forgotten Password?

Click "Forgot Password / Reset Login" to:

- Create a new username and password
- Your bill history will stay safe!

📋 Daily Checklist

****Every Day:****

- ☐ Create bills normally
- ☐ Collect payments as usual
- ☐ Track inventory

****Every Week:****

- ☐ Create a backup (click Backup button)
- ☐ Save the backup file somewhere safe

****Every Month:****

- ☐ Review your reports
- ☐ Check your total revenue
- ☐ Verify inventory counts

🤔 Common Questions

Q: What if my phone gets lost?

A: As long as you created backups, you can restore on a new phone. Import the backup file and you're back in business.

Q: Can I use this on 2 devices?

A: Yes, but they won't automatically sync. You need to backup from one device and import on the other.

Q: What if the internet goes down?

A: No problem! The app stores everything locally. It works perfectly offline. When internet comes back, you can backup and share.

Q: How do I print a receipt?

A: Create a bill, then click "Print Receipt" in the bill preview. Your browser will show a print dialog.

Q: Can staff use this app?

A: Yes! If all staff use the same username/password on the same device, they can share. For more security, each staff member can have their own device with their own login.

Q: How do I generate reports?

A: Click the "Reports" tab at the bottom. You can see:

- Daily sales
- Weekly sales
- Collection history
- Cheque details
- Inventory

🛠 If Something Goes Wrong

App won't open?

- Try refreshing the browser
- Clear browser cache
- Close all other apps and try again

Bill collection failed?

- Check your internet connection
- Refresh the app
- Try again

Lost data?

- Restore from your backup file
- Click the Settings/Import button
- Choose your backup file

Still having issues?

- Contact your support team with:
 - What device you were using
 - What you were trying to do
 - Any error messages you saw

🛠 Support

If you need help:

1. Check this guide first
2. Try refreshing the app
3. Create a backup before trying anything else
4. Contact us if you're still stuck

🛠 Pro Tips

1. Use customer names:

- The app remembers customer names
- Start typing a name to see past customers
- Helps you track who owes money

****2. Add products quickly:****

- During billing, start typing a product name
- If it doesn't exist, you can quickly add it
- No need to go to inventory page every time

****3. Split payments:****

- Accept cash AND card for same bill
- Add multiple payment methods
- System automatically calculates what's left

****4. Cheque payments:****

- Record cheque details (number, date, bank)
- App tracks cheque status (pending/cleared)
- Generate cheque reports later

****5. Expense tracking:****

- Record expenses (fuel, packaging, etc.)
- Filter by date range
- See total expenses vs revenue

📦 Features Included

- 📦 ****Billing**** - Create and manage bills
- 📦 ****Collection**** - Track payment collection
- 📦 ****Inventory**** - Manage product stock
- 📦 ****Customers**** - Track customer details
- 📦 ****Reports**** - Generate PDF reports
- 📦 ****Expenses**** - Track business expenses
- 📦 ****History**** - View all past bills
- 📦 ****Cheques**** - Manage cheque payments
- 📦 ****Backup**** - Backup and restore data

📋 Success Checklist

Before you consider yourself all set:

- [] I can login successfully
- [] I've created my first backup
- [] I can create a test bill
- [] I can collect a payment
- [] I can print a receipt
- [] I understand backup process
- [] I've trained my staff (if applicable)
- [] I have backup files stored safely

****Congratulations! Your Lucky Cashew Billing App is ready to help you run your business! 🎉****
